

DEBOKTI GHOSH

Frontend Engineer – AI-Enabled Enterprise Applications

debokti@gmail.com | (+91)79808-10291 | linkedin.com/in/debokti-ghosh/
debokti-ghosh.vercel.app

Front-End Developer with 7.5+ years of experience specializing in Angular (2 through 16) and scalable web architectures. Currently working as a UI developer for Citibank's ICG Trade Loans, excelling in complex Angular migrations, API integration, and working with CI/CD pipelines using Harness/Lightspeed. Strong experience in debugging complex Angular ↔ Java/JSP integrations, API parameter tracing, production issue analysis, and state management across multi-page workflows. Proven track record in delivering high-stakes regulatory (CAP) projects within the Financial Services sector.

KEY SKILLS

Frameworks: Angular (16+), TypeScript, RxJS, ag-Grid, Bootstrap

DevOps & CI/CD: Harness, Lightspeed, GitHub, Jenkins, Build Analysis

Testing: Writing Unit Test cases using Jasmine and Karma

CMS & Hybrid: Dynamic Yield (CMS tool from MasterCard), IBM WebSphere, Apache Cordova, IBM MobileFirst

Domain: Trade Loans, Banking & Insurance, Cards

Integration & Debugging: Angular–Java/JSP integration, REST API debugging, Network & Console analysis, Request/Response tracing, Production issue triage

Data Science & Analytics (Foundational): Python, Pandas, Data Wrangling,

Exploratory Data Analysis (EDA).

WORK EXPERIENCE

Tata Consultancy Services | Kolkata, India | Nov'24 – Present

- Debugged and enhanced Angular components integrated with legacy Java/JSP systems, reducing production issue resolution time by faster root-cause analysis.
- Worked extensively on request, attachment, and rekey workflows, identifying issues related to state loss on navigation and fixing data retention across page transitions.
- Performed deep analysis using browser dev tools (Network, Console) and backend logs to resolve production issues.
- Collaborated with backend teams to identify mismatches in request payloads, missing parameters, and incorrect API contracts.
- Actively involved in build failure analysis and resolution (Angular & Spring Boot based applications).

- Applied data wrangling techniques to validate large JSON API responses from Trade Loan services, ensuring data integrity before rendering in Angular components.

Capgemini Technology Services | Pune, India | Oct 17- Nov 24

- As a Front-End Developer, I gained experience with Angular (versions 2+) and Angular migration.
- Experience working in large-scale enterprise applications with multi-module Angular architecture and backend integrations.
- I collaborated with major banking clients of Capgemini, including Synchrony Financial, Fiserv Inc., HSBC, and PNB MetLife.
- My experience included working with
 - Mobile-First development and cross-platform deployment,
 - Testing using the Jasmine framework and Karma,
 - Utilising Apache Cordova and IBM MobileFirst Platform,
 - Experience with the CMS tool, Dynamic Yield
- Won awards for long-term service (“Aces of Capgemini”) and was certified as a Level 0 Architect.
- Certifications done - Intermediate Python (DataCamp), Data Manipulation using Pandas (DataCamp)

EDUCATION

B.Tech in Electronics & Communication Engg. | Jul 2013 - Jun 2017
Academy of Technology, Hooghly, West Bengal

ISC | Science | Jul 2012 - Jun 2013
St. Augustine’s Day School, Barrackpore
